**THAI**

**Lufthansa**

# Our Value Proposition

- Over 25 years participation in complex defence procurement programs
- Experienced partner for ITB requirements
- Strategically located for component manufacture, product integration & kitting
- Integrated solution provider
- Proven ISS capabilities

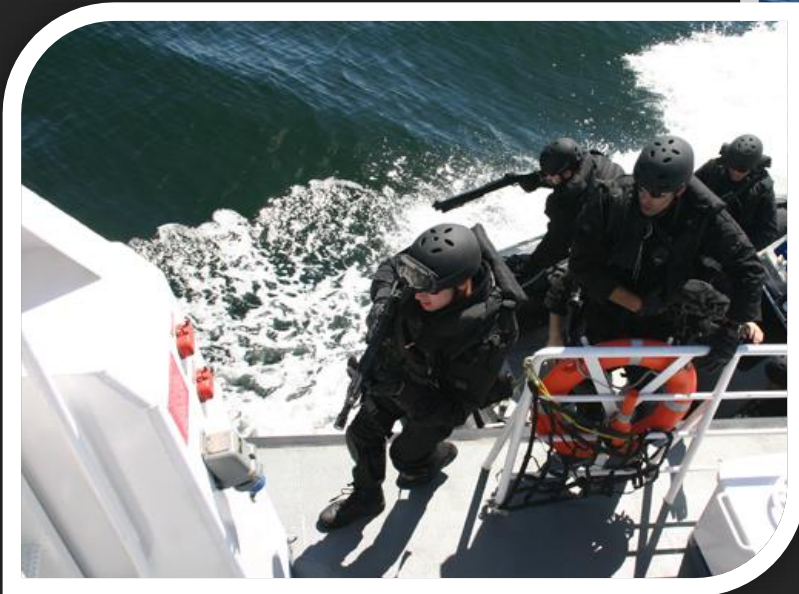

# Air Systems

Aerial Delivery Systems, Inflatable Life Support Products, Cargo Control Solutions, SAR Equipment

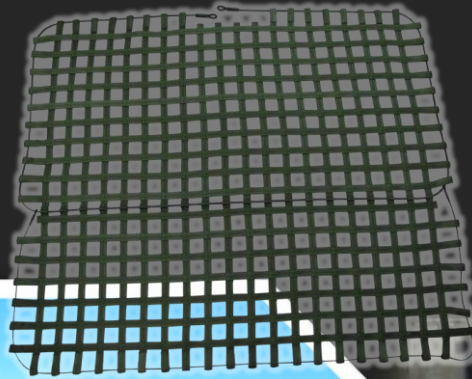

# Maritime Systems

Tactical Life Preservers, Life Rafts & Survival Equipment

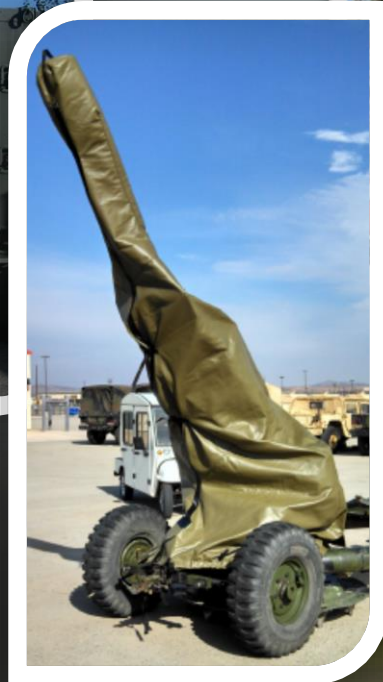

# Vehicle Systems

Protective Covers, Stowage Solutions, Seat Systems, Crew Restraints, Vehicle Sub-Assemblies

# Ground Systems

Protective Covers, Tents & Tarpaulins, Inflatable Shelters, Cargo Control Solutions

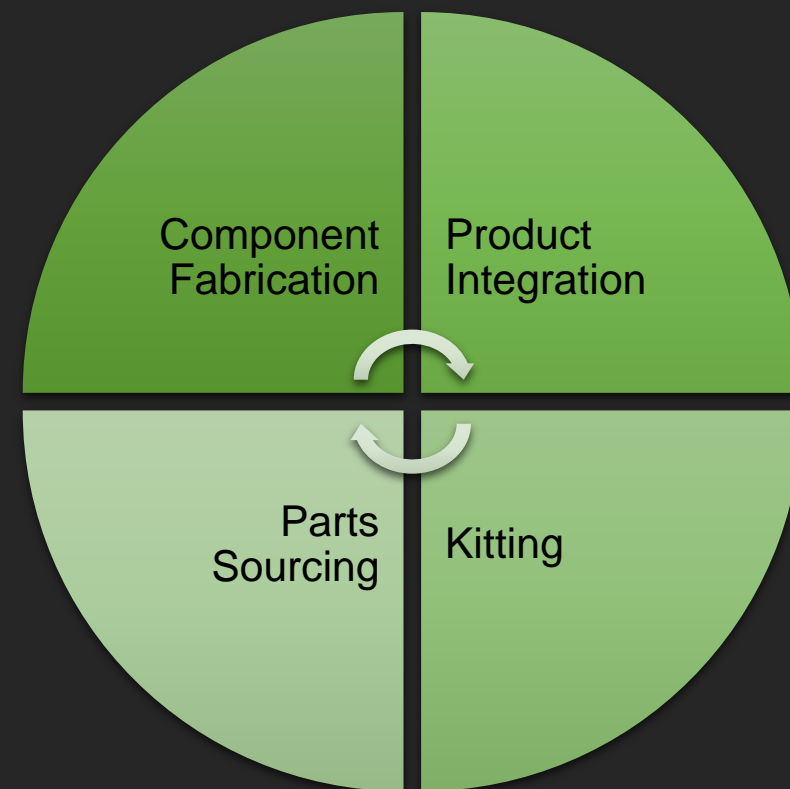

# Supply Chain Solutions

Sourcing, fabrication, assembly and kitting capabilities that enable OEMs to reduce procurement costs and accelerate program deliveries.

Successful program deliveries for:

- Textron Marine and Land Systems
- Navistar Defence
- General Dynamics Land Systems

**TAPV**

**MSVS**

**LAV-UP**

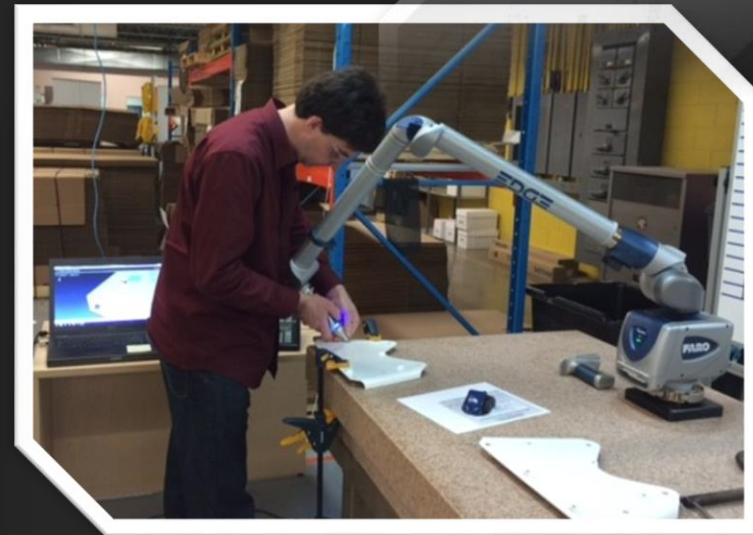

**STRYKER**

**LAV III**

**RG-31**

# Quality Engineering

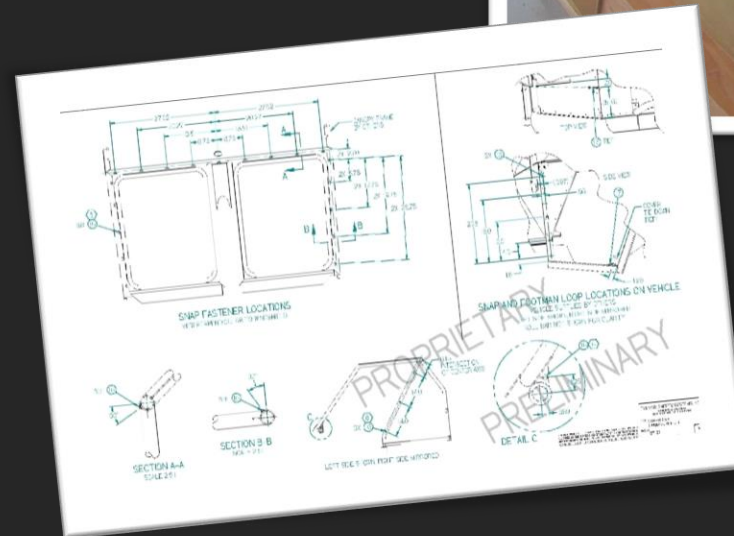

- Supplier qualification (vendors & subcontractors)
- Flow-down of quality clauses
- Weld qualification approvals
- First-piece inspection
- Component & assembly testing

**CWB** **WELD**  
**SPECIALIST**  
WSM100017

# Development Engineering

- Design of new products
- Product modifications & improvements
- Prototyping & validation testing
- Technical data package creation & review

# In-Service Support

A complete program management approach ensures cost control and rapid turn-around.

- Repair and Overhaul
- Modifications – Upgrades
- Technical Investigations and Engineering Studies
- Documentation & Publications
