TURRET GAS BAGS

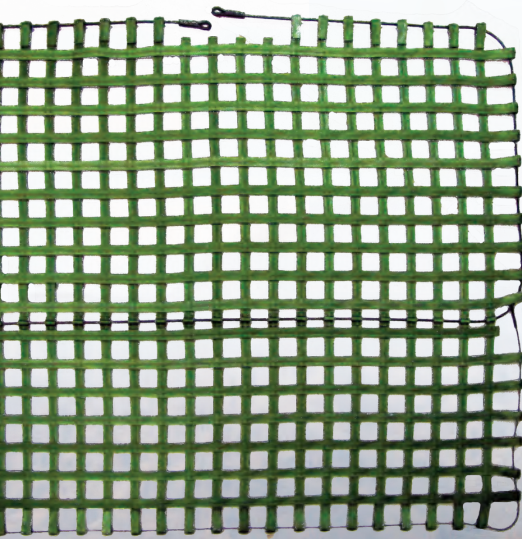

Tulmar collaborated with GDLS to develop gas bags to seal out the external environment from the turret system while still allowing full movement of the guns. The gas bags have been installed successfully on the Kuwait National Guard Turrets.

DETAIL F

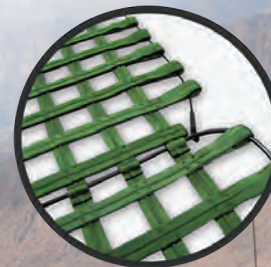

LOCKABLE NETS

Working collaboratively with GDLS-Canada, Tulmar has designed a lockable, theft-deterrent net system to protect the contents in the stowage bin of the LAV. This solution has been successfully deployed on the LAV III.
