

TULMAR

PERFECT FOR MOBILE COMMAND SHELTER

Setup is quick and easy. The shelter inflates in less than five minutes.

PRODUCT INFO & SPECS

Tulmar's inflatable shelter system was developed to meet the requirements of emergency responders who required rapidly deployable shelters. The modular design allows canopies, end walls and floors to be easily detached for repair or replacement. Interconnect panels are available to join multiple shelters for custom configurations. Can be erected in less than five minutes—simply unpack from valise and inflate.

Shelter Footprint	Interior Square Footage	Packed Dimensions	Weight
3.7 M X 4.6 M	17 sq M	61 cm X 61 cm X 135 cm	102 kg
12 FT X 15 FT	180 sq FT	24 in X 24 in X 52 in	225 lbs
4.5 M X 6.1 M	27.5 sq M	71 cm X 71 cm X 152 cm	168 kg
15 FT X 20 FT	300 sq FT	28 in X 28 in X 60 in	370 lbs

Material is rated to operate from -30C - 60C to -22F -140F

The exposed parts of the Tulmar shelter are constructed with anti-fungus, anti-mildew, antibacterial and antimicrobial treatments.

The interior structure is made with anti-mildew and anti-fungal material. This preserves the integrity of the shelter.

RUGGED DESIGN FOR ALL CONDITIONS

Withstands extreme weather, temperatures, and climates.
