true to experience.**

# Evacuation Descent Training Slides

Everything you need for cabin crew training

## Specifically designed to

- Replicate your OEM TSO evacuation slide experience
- Meet all cabin safety training requirements
- Ensure durability, dependability, and low maintenance
- Save money

## Proven to withstand high-volume training

**300**

descent/month

**10+**

years service life

## Standard features

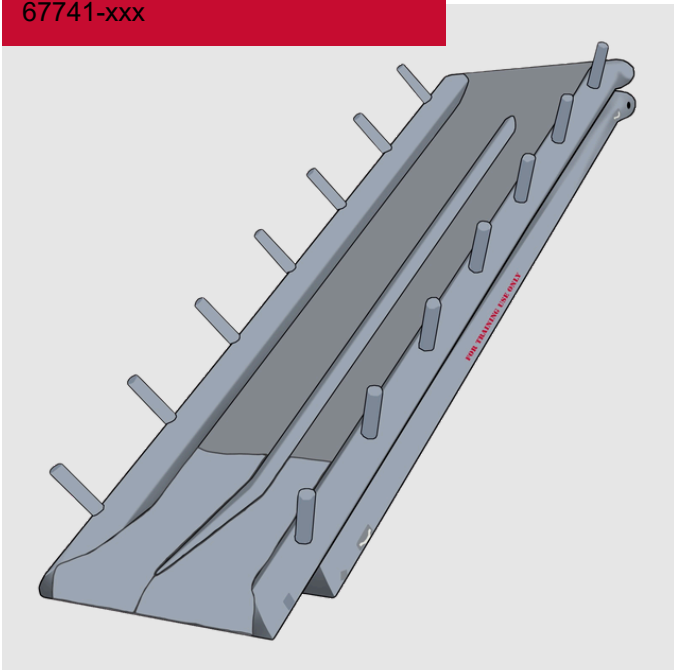

- Replaceable girt with features & pull force simulation
- Replaceable top sliding surface
- Replaceable bottom decelerating sliding surface

## Configurable features

- Length customization tailored to specific requirements
- Life lines
- Functional handles
- Canopy stubs
- Net for canopy stubs
- Marking & Logo
- Optional accessories available, adaptable to various training facility setups

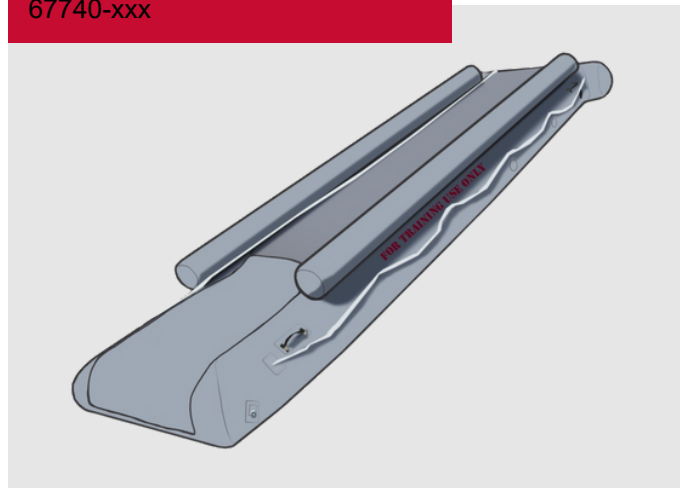

### Dual Lane Descent Slide

67741-xxx

### Single Lane Descent Slide

67740-xxx

# Wet & Deck Training Slides

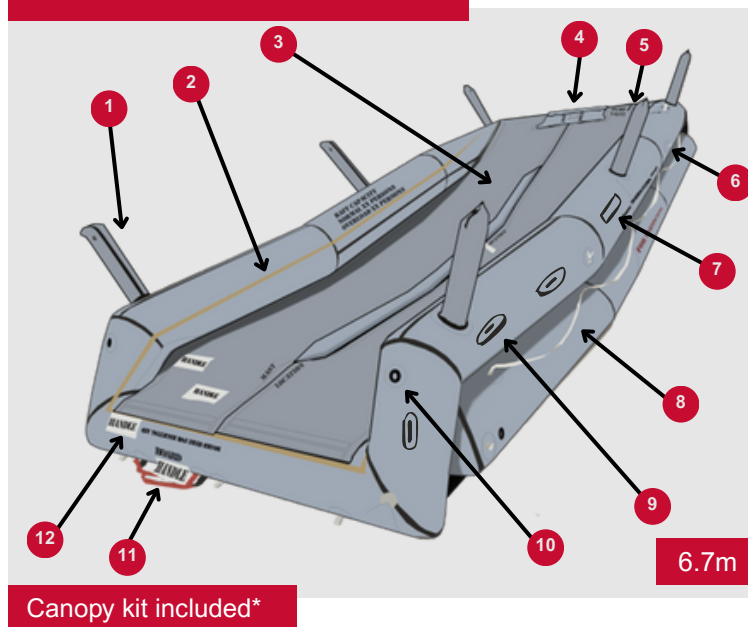

Ensuring safety through advanced training equipment

## Product features

- 1 Canopy stubs
- 2 Simulated emergency light strip
- 3 Replaceable sliding surface set
- 4 Replaceable A320 girt with features & pull force simulation
- 5 Knife in pocket
- 6 Heaving line and rescue ring
- 7 Sea anchor in pouch
- 8 Life lines
- 9 A320 function handles
- 10 Canopy tie downs
- 11 Removable foot end & girt end A320 replicated feature boarding ladders
- 12 Boarding handles

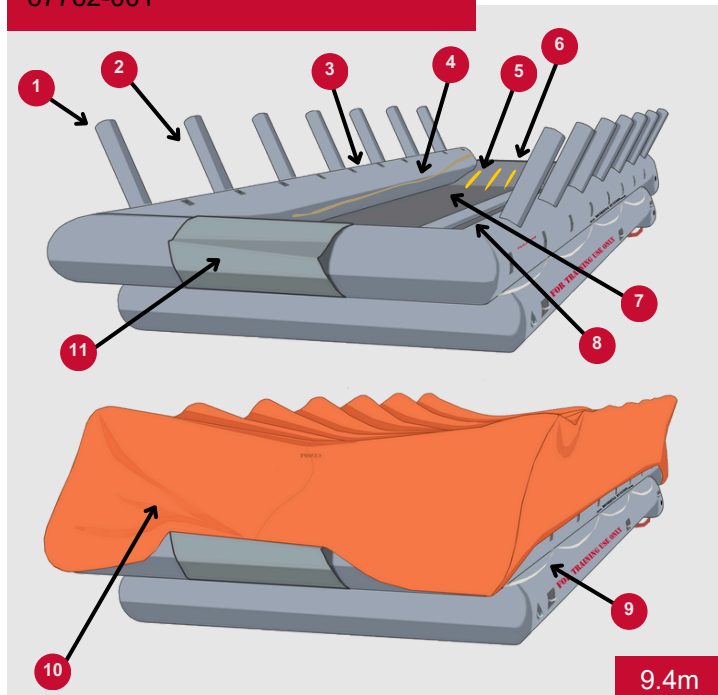

### A320 Wet & Deck Dual Lane

67760-001

### A330 Wet & Deck Dual Lane

67762-001

## Product features

- 1 Sea lights
- 2 Canopy stubs (numbered) & tie downs
- 3 A330 function handles
- 4 Simulated emergency light strip
- 5 Simulated deceleration strips
- 6 Removable A330 replicated feature boarding ladders & handles
- 7 Replaceable sliding surface set
- 8 Knife in pocket, heaving line and rescue ring & sea anchor in pouch
- 9 Life lines
- 10 Canopy kit
- 11 Replaceable A330 girt with features & pull force simulation

# Training Protective Breathing Equipment (PBE)

Realistic. Durable. Washable. Repairable.

Our **Training Protective Breathing Equipment (PBE) models** are designed to feel and operate just like the real thing. Built to meet the rigorous demands of training environments, they ensure durability and ease of use.

- Designed to replicate the appearance and operation of OEM PBEs.
- Features a simple-to-use simulated actuation system for efficient training.
- Constructed with robust materials designed to withstand repetitive use in rigorous training settings.
- Machine washable for easy cleaning, with replacement parts and repair services available at Tulmar.

## Included Accessories

- Removable, non-latex neck seal.
- Simulated actuation system

## Additional Accessories

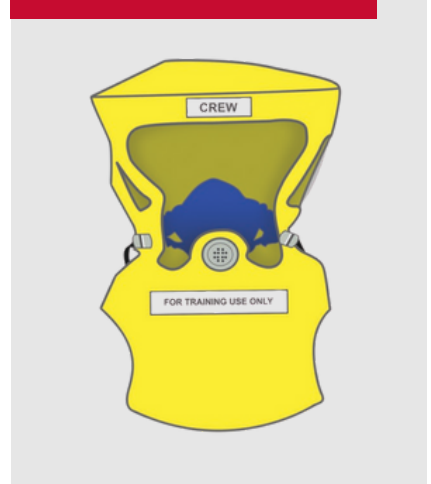

- Re-usable storage pouches and boxes.
- Replacement parts to extend the lifecycle of your PBE.
- Alternate actuation systems.
- Latex neck seal.

**Type 1 – Drager Style**  
6408-005

Nose piece available

**Type 2 – Puritan-Bennett Style**  
6483-001

**Type 3 – Scott-Avox Style**  
6444-105

Pull-pin candle available

**Type 4 – Essex**  
6408-006 & 6485-001

Red ball available

**Type 4 – Air Liquide Style**  
87481-001

# Training Life Vests & Life Rafts

Official **EAM Worldwide & Winslow LifeRaft Company** Distributor

We are an approved global distributor of all **EAM Worldwide** Life Vests, offering both operational and training models. Our comprehensive MRO services extend from thorough inspections to recertification and repairs for all models provided.

## Training life vests available

- P01202-101D (5 years)- Single Cell UXF-35 Passenger Demo
- P01202-201D (10 years) - Single Cell UXF-35 Passenger Demo
- P01074-101D - Twin Cell XF-35 Passenger Demo

## Additional Accessories

- Whistle
- Live & dummy 16g and 33g CO<sup>2</sup> cylinders
- Training life vest pouch (4 sizes)

We are an approved distributor of all operational, training, and re-certified life rafts from **EAM Worldwide** and **Winslow LifeRaft Company**. Our comprehensive MRO services include thorough inspections, recertification, and repairs for all models provided.

## Training life rafts available

- 4 person - Single tube (R0101A601T)
- 9 person - Single tube (R0103A601T)
- 6 person - Twin tube (R0425A601T)
- 12 person - Twin tube (R0297A601T)
- 25 person - Twin tube (R037A601T)
- 32 person - Twin tube (R1700-701T)
- 36 person - Twin tube (R1900-701T)
- 46 person - Twin tube (R0202A701T)
- 56 person - Twin tube (R2000-701T)

## Configuration Details

- **Included:** Canopy & SEP (Survival Equipment Pack) kit
- **Excluded:** Inflation system, carrying case, warranty.

# Type Specific & Classroom Girt Trainers

A hands-on solution for mastering safety procedures

Our **girt trainers** offer users an authentic OEM experience, allowing them to practice the critical actions of pulling the handle to inflate an evacuation slide and detach a girt. These trainers are designed to replicate the precise motion and force required to perform these tasks in a real emergency evacuation scenario.

## Classroom Girt Trainer Features

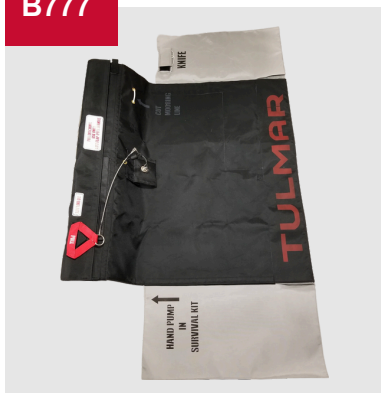

- Realistic pull force for inflation and release (30 lbs)
- Authentic pull motion sequence
- Lacing under girt flap mimics slide attachment
- Anti-skid bottom for various training surfaces
- Foldable design with back handles for easy storage
- Quick reset feature (less than 20 seconds)

## Classroom Girt Trainer
