

New!

Reimagining Infant Travel with Hestia

Designed for fleets evolving beyond traditional boundaries, **Hestia**, named after the goddess of the hearth and protector of family life, reflects a modern, modular approach to cabin design and passenger experience, anchored in safety, intuitive use, and reliability for airlines and travelling families.

Designed to reflect your airline's identity, choose from a curated palette or customize your own.

Maximize Space

- 60% reduction in storage volume
- Folds flat against the bulkhead
- Preserves seat area space

Simplify Operations

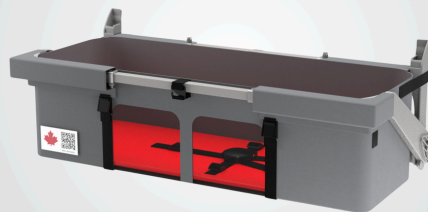

- Modular design with 5 easily removable components
- Enables fast cleaning and replacement
- Remains installed during turbulence
- Minimizes in-flight handling
- Seamless transition: sleeping to seated
- 2-point wall anchor for secure installation

Enhance Passenger Experience

- Supports infants up to 18 kg (40 lbs)
- Comfort at every stage of the journey
- Optional canopy for a calmer cabin environment
- 5-point harness for enhanced safety and comfort

Room to Move,
Even When Not in Use

Improved Long-Term Hygiene

At-a-Glance Visibility
