Tulmar continues its steady growth in the cabin crew training market, attracting several new customer accounts from around the world in the past year.

Hawkesbury, ON, Canada (March 16th, 2018) – Tulmar Safety Systems, a leading provider of cabin crew training equipment and related services is proud to announce new international customers have joined the company since its participation at the World Airline Training Show and Conference (WATS) in 2017.

Tulmar's new customer accounts spread across several regions of the world and include:

Air Asia (Malaysia), Dubai Air Wing (UAE), Endeavor Air (USA), Fly Dubai (UAE), Frontier Airlines (USA), Hawaiian Airlines (USA), Hawker Pacific (Australia), Horizon Air (USA), Spirit Airlines (USA), Trans-States Airlines (USA), as well as several United Airlines training locations in the USA.

These new customers are added to an existing worldwide base which includes airlines, independent training centers and training equipment integrators.

“We are proud that our portfolio, which includes training slides, protective breathing equipment and other essential training equipment, find its way in all regions of the world.” said Barney Bangs, CEO of Tulmar Safety Systems.

“The key to our growth and success in the future lies in our ability to work with our customers and partners to develop products that provide the most realistic training experience while being able to sustain the rigors of repeated training cycles. To this end, individual components are made to be replaceable when damaged or worn so that training is never interrupted” added Bangs.

About Tulmar

Tulmar Safety Systems Inc. is a designer, manufacturer of engineered protective equipment and survivability solutions for the aerospace and defence markets worldwide.

The company's products range from highly specialized protection equipment for military vehicles, to inflatable life support and flotation products for defence and aerospace applications and specialized training equipment sold to airlines around the world. Our products are supported through a fully certified repair and overhaul division.
